

WHAT IS CLAIMED IS:

1. A card medium for use in information distribution, comprising:

a card main body;

a first indication section stripably formed on the card main body for indicating information relating to selected songs; and

a second indication section stripably formed on the card main body for indicating information relating to the selected songs.

2. A card medium for use in information distribution, comprising:

a card main body;

a first indication section stripably formed on the card main body for being attached to a file member;

a second indication section stripably formed on the card main body; and

a third indication section stripably formed on the card main body for being attached to a file member.

3. A card medium according to claim 2, wherein the third indication section is an index section.

4. A card medium according to claim 1 or 2, wherein the card

main body is a song-word card, the first indication section is a song-word indication section, the second indication section is provided for being attached to an information recording medium.

5. A card medium according to claim 2, wherein the card main body is a song-word card, the first indication section is a song-word indication section, the second indication section is provided for being attached to an information recording medium, and the third indication section is an index section.

6. A card medium for use in information distribution, comprising:

- a song-word card main body;

- a first indication section stripably formed on the song-word card main body for indicating information relating to recorded songs;

- a second indication section stripably formed on the song-word card main body for indicating information relating to the recorded songs.

7. A card medium for use in information distribution, comprising:

- a song-word card main body;

- a first indication section stripably formed on the song-word card main body for indicating information relating to

recorded songs, said first indication section being later attached to a file member;

a second indication section stripably formed on the song-word card main body for indicating information relating to the recorded songs; and

a third indication section stripably formed on the song-word card main body for indicating information relating to the recorded songs, said third indication section being later attached to a file member.

8. A card medium according to claim 7, wherein the third indication section is an index section.

9. A card medium according to claim 6 or 7, wherein the first indication section is a song-word indication section, the second indication section is provided for being attached to an information recording medium.

10. A card medium according to claim 7, wherein the first indication section is a song-word indication section, the second indication section is provided for being attached to an information recording medium, and third section is an index section.

1, 2, 3, 5, 6, 7, 8 and 10
A 11. A card medium according to any one of claims ~~1 to 10~~, wherein the first indication section includes a disc jacket

indication section along with the song-word indication section.

A

12. A card medium according to any one of claims ^{1, 2, 3, 5, 6, 7, 8 and 10} ~~1 to 10~~, wherein the first indication section contains musical characters of a calling-out melody of a portable telephone.
